Suspension is probably the most misunderstood aspect of motorcycle performance. This book, by America's premier suspension specialist, makes the art and science of suspension tuning accessible to professional and backyard motorcycle mechanics alike. Based on Paul Thede's wildly popular Race Tech Suspension Seminars, this step-by-step guide shows anyone how to make their bike, or their kid's, handle like a pro's. Thede gives a clear account of the three forces of suspension that you must understand to make accurate assessments of your suspension's condition. He outlines testing procedures that will help you gauge how well you're improving your suspension, along with your riding. And, if you're inclined to perfect your bike's handling, he even explains the black art of chassis geometry. Finally, step-by-step photos of suspension disassembly and assembly help you rebuild your forks and shocks for optimum performance. The book even provides detailed troubleshooting guides for dirt, street, and supermoto--promising a solution to virtually any handling problem.

In *Promiscuous Media*, Hikari Hori makes a compelling case that the visual culture of Showa-era Japan articulated urgent issues of modernity rather than serving as a simple expression of nationalism. Hori makes clear that the Japanese cinema of the time was in fact almost wholly built on a foundation of Russian and British film theory as well as American film genres and techniques. Hori provides a range of examples that illustrate how maternal melodrama and animated features, akin to those popularized by Disney, were adopted wholesale by Japanese filmmakers. Emperor Hirohito's image, Hori argues, was inseparable from the development of mass media; he was the first emperor whose public appearances were covered by media ranging from postcards to radio broadcasts. Worship of the emperor through viewing his image, Hori shows, taught the Japanese people how to look at images and primed their enjoyment of early animation and documentary films alike. *Promiscuous Media* links the political and the cultural closely in a way that illuminates the nature of twentieth-century Japanese society.

Making Sense of World History is a comprehensive and accessible textbook that helps students understand the key themes of world history within a chronological framework stretching from ancient times to the present day. To lend coherence to its narrative, the book employs a set of organizing devices that connect times, places, and/or themes. This narrative is supported by: Flowcharts that show how phenomena within diverse broad themes interact in generating key processes and events in world history. A discussion of the common challenges faced by different types of agent, including rulers, merchants, farmers, and parents, and a comparison of how these challenges were addressed in different times and places. An exhaustive and balanced treatment of themes such as culture, politics, and economy, with an emphasis on interaction. Explicit attention to skill acquisition in organizing information, cultural sensitivity, comparison, visual literacy, integration, interrogating primary sources, and critical thinking. A focus on historical "episodes" that are carefully related to each other. Through the use of such devices, the book shows the cumulative effect of thematic interactions through time, communicates the many ways in which societies have influenced each other through history, and allows us to compare and contrast how they have reacted to similar challenges. They also allow the reader to transcend historical controversies and can be used to stimulate class discussions and guide student assignments. With a unified authorial voice and offering a narrative from the ancient to the present, this is the go-to textbook for World History courses and students. The Open Access version of this book, available at <https://www.taylorfrancis.com/books/9781003013518>, has been made available under a Creative Commons Attribution-Non Commercial-No Derivatives 4.0 license.

Each Clymer manual provides specific and detailed instructions for performing everything from basic maintenance and troubleshooting to a complete overhaul of the machine. This manual covers the Yamaha YFZ450 and YFZ450R built from 2004 to 2017. Do-it-yourselfers will find this service and repair manual more comprehensive than the factory manual, making it an indispensable part of their tool box.

Jonathan Young is the cowboy nerd of the Young brood. He's the website and marketing go to person for Thunder Ridge and he's not nearly as ruggedly handsome as his eight brothers, or so he thinks. Nerds aren't like that. They sit behind computers, work on graphics, content, and how to make their clients rich by pushing the envelope to get the name out there. He's done that for years. Now it's time to see what else is in his future. Enter Mandy Jenkins, wild child of Bandera Texas and honorary family member of the Young's. She's gorgeous, funny, smart, and sweet, and she apparently wants him. Can he come out of his shell and be the man she needs? Mandy Jenkins has wanted Jonathan Young for over three years. He's been the cowboy of her dreams, since the day she met him. Unfortunately, he didn't seem interested at all and she's about given up on the vision of happily ever after with him. A secret in her past could put him beyond her grasp, even if it wasn't her fault. Will they be able to find true love or will past mistakes be the end of what could prove to be the best thing they ever had?

Best in Show is a collection of photographs of well-groomed and award-winning dogs by New York City-based photographer Dolly Faibyshev. The images from the Westminster Kennel Club Dog Show and beyond focus on the unique—and often humorous—relationship between each dog and their handler. Dolly Faibyshev focuses on kitsch, irony, and the larger than life human and canine characters that make up Best in Show. The result is a colorful, vibrant, campy, and satirical take on this specific slice of Americana. • The colorful, closely cropped juxtapositions of each coiffed canine contestant and their dedicated human are both humorous and charming. • Sure to delight fans of all breeds of dogs • A universal and ideal book for all canine lovers with a sense of humor Best in Show captures a specific subculture of dog devotees primarily from the infamous Westminster Kennel Club Dog Show at Madison Square Garden in New York. • A perfect book for anyone who is completely and totally obsessed with dogs and the Westminster Kennel Club Dog Show • Photographers and contemporary art lovers will also love this celebration of Dolly Faibyshev's work • Great for fans of The Dogist: Photographic Encounters with 1,000 Dogs by Elias Weiss Friedman, Dogs by Lewis Blackwell and Tim Flach, and Underwater Dogs by Seth Casteel

This groundbreaking book offers a step-by-step approach for drummers of all styles to learn and apply the concept of open-handed playing on the modern drumset. Based on concepts developed by teaching great Jim Chapin and fusion legend Billy Cobham, Open-Handed Playing not only outlines all the benefits of avoiding the crossing of hands when playing the drumset, but provides an incredibly detailed, complete and approachable method for learning this technique. "There is a wealth of ideas and exercises that offer students inspiration to develop their own approaches and applications." Tom Morgan, Percussive Notes

Yamaha YZF-R1 1998-2003

(Drum Instruction). In "Dubstep Drumming," world-class educator Donny Gruendler walks you through today's most popular dubstep grooves, winding hi-hat patterns, and DJ-esque textures for the drumset. Clear drumset-based demonstrations, exercises, play-alongs, and practice methods help you faithfully replicate these items quickly and efficiently. Also presented are a
