This book provides in-depth analyses on  
accounting methods of GDP, statistic  
calibers and comparative perspectives on  
Chinese GDP. Beginning with an

# Online Library China Motor Cycle Repairing In Urdu

exploration of international comparisons of GDP, the book introduces the theoretical backgrounds, data sources, algorithms of the exchange rate method and the purchasing power parity method and discusses the advantages, disadvantages, and the latest developments in the two methods. This book further

## Online Library China Motor Cycle Repairing In Urdu

elaborates on the reasons for the imperfections of the Chinese GDP data including limitations of current statistical techniques and the accounting system, as well as the relatively confusing statistics for the service industry. The authors then make suggestions for improvement. Finally, the authors emphasize that

# Online Library China Motor Cycle Repairing In Urdu

evaluation of a country's economy and social development should not be solely limited to GDP, but should focus more on indicators of the comprehensive national power, national welfare, and the people's livelihood. This book will be of interest to economists, China-watchers, and scholars of geopolitics.
