Emerging from a small sect of Judaism in the 1st century CE, early Christianity absorbed many of the shared religious, cultural, and intellectual traditions of the Greco-Roman world. In traditional histories of Western culture, the emergence of Christianity in the Roman Empire is known as “the triumph of Christianity.” This refers to the victory of Christian beliefs over the allegedly false beliefs and practices of paganism.

This volume, the inaugural volume in Claremont's series on the New Testament and Christian Origins, celebrates the distinguished career of Dr. Dennis R. MacDonald. As students and scholars of the New Testament will know, MacDonald almost single-handedly established the discipline of Mimesis Criticism. However, MacDonald's scholarly achievements far exceed his role in establishing that emerging discipline within New Testament studies. MacDonald's scholarship and interests range widely over the entire discipline of Christian origins. His work has

striven above all to situate the New Testament within the historical, social and literary contexts of the Greco-Roman world. The scholars -both junior and senior- in this volume participate in MacDonald's quest to locate the New Testament texts within their proper historical framework. The essays in this volume range from the Hebrew origins of the New Testament to Platonic influence on the New Testament, from Homeric imitation to the semantic domain of James, and from fresh readings of Mark to revisionist histories of Paul. There is something here for everyone. The essays are original, the arguments fresh and the language crisp. Every student of the New Testament will want to spend time with this wide-ranging celebration of MacDonald's intellectual prowess and academic career.

they reveal about early Christian communities and the development of Christian identity. Beginning with Hellenistic documents and authors before moving on to the New Testament material itself, according to genre - Gospels, Acts, Letters, Apocalyptic Literature - the handbook culminates with a section on the wider resources that describe daily life in the period, such as medical documents and inscriptions. The literary, historical, theological and philosophical aspects of these resources are also considered, including such aspects as the role of gender during meals; issues of monotheism and polytheism that arise from the structure of the meal; how sacrifice is understood in different meal practices; power dynamics during the meal and issues of inclusion and exclusion at meals.

Early Christians frequently used metaphors about slavery, calling themselves slaves of God and Christ and referring to their leaders as slave representatives of Christ. Most biblical scholars have insisted that this language would have been distasteful to potential converts in the Greco-Roman world, and they have wondered why early Christians such as Paul used the image of slavery to portray salvation. In this book Dale B. Martin addresses the issue by examining the social history and rhetorical and theological conventions of the times. The first half of the book draws on a variety of historical sources - inscriptions, novels, speeches, dream-handbooks, and agricultural manuals - to portray the complexity of slavery in the early Roman empire. Concentrating on middle-level, managerial slaves, Martin shows how slavery sometimes functioned as a means of upward social

mobility and as a form of status-by-association for those slaves who were agents of members of the upper class. For this reason, say Martin, “slavery of Christ,” brought the Christian convert a degree of symbolic status and lent the Christian leader a certain kind of derived authority. The second half of the book traces the Greco-Roman use of political rhetoric that spoke about populist leaders as “enslaved” to their followers, especially to members of the lower class. This provides the context for Paul’s claim, in 1 Corinthians 9, that he has enslaved himself to “all” – that is, to those very people he is supposed to lead as an apostle. Martin thus interprets this statement to mean that Paul identifies himself with the interests of persons with lower status in the Corinthian church, calling on those with higher status to imitate his self-debasement in order to further the interests of those below them on the social scale.
