where you can create your own interactive stories, games, and animations.

~~Scratch – Imagine, Program, Share~~

Scratch is a coding environment designed especially for children. One can make an analogue of different simple games and useful programs by putting coding blocks together like Lego. Moreover, Scratch is a large online community of children from all over the world. They can be inspired by each other's work, leave comments and share their projects. Scratch is not only an entertainment for kids, children can really program there.
