PSA EW/DW engine - Wikipedia

There are a lot of differences between the J4S/J4 and even the EW10A. The head is different obviously cause of the VVT but not only that, also it houses the 2.2LT valves and lifters. The bottom end gets fully floating MAHLE pistons and forged steel Conrods the block also gets piston squirter jets and there's also a plug on the back of the block that also doubles as the water return for the ...

Difference between the EW10J4 and J4S - French Car Forum

1,4 engines have two common oil leaks, both are age related. First the top cover gasket fails - this is easy to fix; it requires very little removal of parts. At the time of renewal, valve clearances should be re-set. Second the oil passage to the head loses its sealing ability as the head gasket ages; this puts oil into the coolant in addition to allowing it out the gap between head and block ...

Oil Dipstick for CITROËN C4 Grand Picasso I (UA_) RFJ ...

As engine oil's role is to keep all the parts of your engine moving and working correctly, over time it can collect dirt and start to become less efficient at its job. It is recommended that you change your engine oil every 5,000 miles - but if you drive a lot, or in challenging conditions, it's worth changing it at 3,000 miles. What engine oil does my car need?
