PDX Math Circle. For Teachers. We are deciding how to go forward under Covid-19 since meeting in a group inside seems ill-advised. Please contact us at info@pdxmathcircle.org if you have questions or thoughts. For Kids. Our Math Circles for kids are on hold as we don't currently have any circle leaders.

PDX Math Circle

The radius is r , the center of the circle is (h, k) , and (x, y) is any point on the circle. For example, suppose $(x - 2)^2 + (y - 3)^2 = 4^2$ is an equation of a circle. The center of this circle is located at $(2, 3)$ on the coordinate system and the radius is 4. How to derive the standard form of an equation of a circle.

Equation of a Circle - Basic-mathematics.com

These documents provide guidance for implementing GO Math! K-5 in ways that best align to college- and career-ready standards. Each document includes general guidance for teachers to support implementation of the program across all grades along with lightweight grade-level-specific guidance, both across the year and for individual chapters.
