Local and state governments are increasingly adopting mandates requiring green construction. Lenders commonly insert green requirements into mortgages. National tenants require green in their leases.

### Green Buildings: Law, Contract and Regulation ...

Ensuring construction contracts adhere to environmental legislation is not just about saving the planet - they can help your project run smoothly and protect you, too. Welcome to building.co.uk. This site uses cookies.

### Green issues and building contracts | Comment | Building

As an increasing number of contractors seek LEED and other third-party green building certifications, the complex set of documents used to manage construction projects must adapt to reflect the challenges and risks inherent in green building. Risks include the use of new materials and design techniques, uncertainty around the performance of the building upon completion and the ability to actually achieve a third-party certification.
