burning anger: at the jerks in our class, at our disappointing parents, at the whole flawed, unjust world. We were only three angry girls, simmering uselessly in our ocean-side California town, until one day a mysterious, beautiful classmate named Ambrosia taught us what else we could be: Powerful. Deadly. Furious. Yes, that's us. The three Greek Furies, come to life, ready to take our revenge on everyone who deserves it. And who doesn't deserve it, really? We're done with chances. We are angry. The Furies have come to town. Jill Wolfson's *Furious* is an enthralling retelling of Greek myth.

The blistering story of a young man making his Broadway debut in *Henry IV* just as his marriage implodes--an utterly transfixing book about art and love, fame and heartbreak from the acclaimed actor/writer/director. Hawke's first novel

in nearly twenty years is a bracing meditation on fame and celebrity, and the redemptive, healing power of art; a portrait of the ravages of disappointment and divorce; a poignant consideration of the rites of fatherhood and manhood; a novel soaked in rage and sex, longing and despair; and a passionate love letter to the world of theater. *A Bright Ray of Darkness* showcases Ethan Hawke's gifts as a novelist as never before. Hawke's narrator is a young man in torment, disgusted with himself after the collapse of his marriage, still half-hoping for a reconciliation that would allow him to forgive himself and move on as he clumsily, and sometimes hilariously, tries to manage the wreckage of his personal life with whiskey and sex. What saves him is theater: in particular, the challenge of performing the role of Hotspur in a production of *Henry IV* under the

This "superbly written true-crime story" (Michael Lewis, *The New York Times Book Review*) masterfully brings together the tales of a serial killer in 1970s Alabama and of Harper Lee, the beloved author of *To Kill a Mockingbird*, who tried to write his story. Reverend Willie Maxwell was a rural preacher accused of murdering five of his family members, but with the help of a savvy lawyer, he escaped justice for years until a relative assassinated him at the funeral of his last victim. Despite hundreds of witnesses, Maxwell's murderer was acquitted--thanks to the same attorney who had previously

defended the reverend himself. Sitting in the audience during the vigilante's trial was Harper Lee, who spent a year in town reporting on the Maxwell case and many more trying to finish the book she called *The Reverend*. Cep brings this remarkable story to life, from the horrifying murders to the courtroom drama to the racial politics of the Deep South, while offering a deeply moving portrait of one of our most revered writers.

Journalist Rebecca Traister's New York Times bestselling exploration of the transformative power of female anger and its ability to transcend into a political movement is "a hopeful, maddening compendium of righteous feminine anger, and the good it can do when wielded efficiently—and collectively" (Vanity Fair). Long before Pantsuit Nation, before the Women's March, and before the #MeToo movement, women's anger was not only politically catalytic—but politically problematic. The story of female fury and its cultural significance demonstrates its crucial role in women's slow rise to political power in America, as well as the

ways that anger is received when it comes from women as opposed to when it comes from men. “Urgent, enlightened...realistic and compelling...Traister eloquently highlights the challenge of blaming not just forces and systems, but individuals” (The Washington Post). In *Good and Mad*, Traister tracks the history of female anger as political fuel—from suffragettes marching on the White House to office workers vacating their buildings after Clarence Thomas was confirmed to the Supreme Court. Traister explores women’s anger at both men and other women; anger between ideological allies and foes; the varied ways anger is received based on who’s expressing it; and the way women’s collective fury has become transformative political fuel. She deconstructs society’s (and the media’s) condemnation of female emotion (especially rage) and the impact of their

resulting repercussions. Highlighting a double standard perpetuated against women by all sexes, and its disastrous, stultifying effect, *Good and Mad* is “perfectly timed and inspiring” (People, Book of the Week). This “admirably rousing narrative” (The Atlantic) offers a glimpse into the galvanizing force of women’s collective anger, which, when harnessed, can change history.

Five years after a suspicious fire killed his ornithologist mother, a closeted Syrian American trans boy sheds his birth name and searches for a new one. As his grandmother’s sole caretaker, he spends his days cooped up in their apartment, avoiding his neighborhood masjid, his estranged sister, and even his best friend (who also happens to be his longtime crush). The only time he feels truly free is when he slips out at night to paint murals on buildings in the once-thriving Manhattan neighborhood known as Little Syria, but he’s been struggling ever since his mother’s ghost began visiting him each evening. One night, he enters the

She mysteriously disappeared more than sixty years before, but her journal contains proof that both his mother and Laila Z encountered the same rare bird before their deaths. In fact, Laila Z's past is intimately tied to his mother's in ways he never could have expected. Even more surprising, Laila Z's story reveals the histories of queer and transgender people within his own community that he never knew. Realizing that he isn't and has never been alone, he has the courage to claim a new name: Nadir, an Arabic name meaning rare.
