An Intake Interview Outline and Activity | John Sommers...

Some sections may have more or less detail, depending on the client's situation or length of the session. For example, it often takes more time to do an intake for child and adolescent clients because we want to get information from the caretakers, as well as the client. Other therapists simply do a more in-depth assessment and take 2-4 sessions. When that happens, simply document the portions you did cover (and with whom you discussed it) and then what you plan to cover in the next session.
