On my Voyager, oil would cover the site glass just above the low engine oil level. With the Amsoil I would only change oil every 10,000 miles using a K & N oil filter. Now the Voyager has 220,000 miles and I still change the oil at 10,000 miles. Then engine still doesn't use any oil between oil changes.

I bought my 2003 Kawasaki Voyager with only 1 mile on it. The bike has been great overall. The pros: proven design, reliable, smooth and responsive, large trunk will hold two full size helmets, roomy saddle bags, cruise control, and drive shaft. It is reasonably comfortable although a seat comparable to that on the gold wing would be better as would a higher seat for tall riders. The bike is ...
