Moving to a new Amish settlement in small-town Colorado was a brave new start for independent-minded quiltmaker Esther Kiem. But helping her reckless relative will really put her special matchmaking skills to the test . . . Mischievous and rebellious, young Ben Kiem is making the wrong kind of name for himself throughout the town of Byler. And even though his sister-in-law, Esther, somehow coaxes him into keeping company with sensible Linda Eicher, Ben can't see anything they have in common. Or that he could ever be good enough for someone like her. But Linda's down-to-earth nature and unexpected understanding have Ben trying his best to be better, no matter how challenging . . . Linda couldn't be more surprised when Ben turns out to be caring and helpful, despite his rowdy pranks and bad-news friends. And falling in love with him suddenly seems just right. But when a heart-breaking misunderstanding comes between them, both she and Ben must risk enough to trust, stitch the pieces back together—and dare a forever precious happiness. Praise for Jennifer Beckstrand and Abraham "This is an endearing romance that fans of Wanda Brunstetter will love." —Publishers Weekly

What are the various atmospheres or moods that the reading of literary works can trigger? Hans Ulrich Gumbrecht has long argued that the function of literature is not so much to describe, or to re-present, as to make present. Here, he goes one step further, exploring the substance and reality of language as a material component of the world—impalpable hints, tones, and airs that, as much as they may be elusive, are no less matters of actual fact. Reading, we discover, is an experiencing of specific moods and atmospheres, or Stimmung. These moods are on a continuum akin to a musical scale. They present themselves as nuances that challenge our powers of discernment and description, as well as language's potential to capture them. Perhaps the best we can do is to point in their direction. Conveying personal encounters with poetry, song, painting, and the novel, this book thus gestures toward the intangible and in the process, constitutes a bold defense of the subjective experience of the arts.
