This video shows you how to add transmission fluid to your 1998 Mazda 626. Before adding transmission fluid, make sure that your engine was running when you checked the fluid level. If the transmission fluid level on your 626 is low, you need to add fluid through the dipstick tube. Mazda has been developed sophisticated transmissions through years and it is critical that you add the exact type of transmission fluid stipulated by your owner's manual (typically in the back of the manual in a ...

What Type of Transmission Fluid for Mazda 626 Capacity
If the transmission fluid level in your 626 is low, you need to add transmission fluid through the dipstick tube. When adding transmission fluid to your 626, be sure to add it slowly as it will fill up quickly and is difficult to remove excess fluid if you overfill. If you are having problems with the transmission in your 626, such as clunky shifting or hesitation, check the fluid level first - it is amazing how many drivers pay thousands of dollars for transmission work when a half quart of ...

Transmission Fluid Level Check Mazda 626 (1998-2002---

The Mazda 626 SHOULD use Dexron-III Mercon or its superceding Dexron-IV Mercon. However, I don't know that for certain -- most manufacturers except for Chrysler have gone to the Dexron fluid. Did you properly fill the fluid?
