Building a website is a BIG undertaking for any person and/or business. It doesn't matter if you're building a 4-5 page website or a 15-20 page website, you want to make sure you put the time in to make the site the best it can possibly be. I liken a website to my online real estate. It's your personal web property.

~~Website Planning & Developing Your Website Blueprint~~

What began as a simple project has become a series of headaches, all due to a failure to plan. From a Web professional's perspective, developing a 50-page website for six unique stakeholders is far more complex than building a rectangular deck. A deck is a physical structure built in stages. You can look out the window and see the progress.
