It's not as if the bible is silent as to the race or skin colouration of Jesus Christ, the truth is there, but, it is just the way it has been presented in textbooks, movies, stories, Hollywood, making Jesus to appear to be a white man. On the contrary, the bible itself left enough allegory to the physical characteristics of Jesus in several verses that indicates the real Jesus may have been a black man, and not the white, blonde-haired, blue-eyed Jesus the world has been made to believe.

Another was Cush, which is the Hebrew word for black. Cush was the father of the black people. Shem was the patriarch of the Jewish and Arab people who settled the Middle East. Genesis 11 follows the line of Shem to Abram (God changed his name to Abraham) the first man to be called a Hebrew (Genesis 14:13).

From Volume I: Abraham and his wife made their African slave a surrogate mother and she bore Abraham a half-black heir. Later, God wished to use Moses and his Ethiopian wife and half-Ethiopian sons to raise up a new race of Jews to replace the twelve tribes of Israel. Let's not forget that the Almighty did not object when Jacob passed "the blessing of Abraham" on to his half-African grandsons, Ephraim and Manasseh, in North Africa. In light of these facts it's amazing that early Americans wondered if blacks could be saved especially since it was big news to Jews that gentiles (Europeans) could be saved. Prior to the Apostles of Christ's debate about whether Europeans, called gentiles in Scripture, could be saved, Niger and Lucius were black Bible teachers at Antioch (where believers were first called Christians) and an Ethiopian eunuch had been saved and baptized. (Acts 13:1, 15:7) The first king, queen, prince, and princess in the Bible were black. It was an

African princess who found Moses floating down the Nile in Africa. Later Esther a dark skinned Jew won a black beauty contest that stretched from India to Ethiopia. Blacks in the Bible Vol. I shows you truths stranger than fiction.

We live in an age when younger African-American Christians are asking tough questions that previous generations would dare not ask. This generation doesn't hesitate to question the validity of the Scriptures, the efficacy of the church and even the historicity of Jesus. Young people are becoming increasingly curious as to what role, if any, did people of African descent play in biblical history? Or, if the Bible is devoid of Black presence, and is merely a book by Europeans, about Europeans and for Europeans to the exclusion of other races and ethnicities? Dr. Theron D. Williams makes a significant contribution to this conversation by answering the difficult questions this generation fearlessly poses. Dr. Williams uses facts from the Bible, well-respected historians, scientists, and DNA evidence to prove that Black people comprised the biblical Israelite community. Dr. Williams also presents historical evidence that links some in the African-American community to the Lost Tribes of Israel. He also shares historical images from the ancient catacombs that vividly depict the true likeness of the biblical Israelites. This book does not change the biblical text, but it will change how you understand it.

Surprisingly, all 5 billion Bibles translated in whole or in part into nearly 3,000 languages sprang from Black African manuscripts. The oldest Hebrew Old Testament manuscripts, the oldest Greek New Testament manuscripts, and the oldest Greek translation of the Hebrew Old Testament (called the Septuagint), are all African documents. After 25 years of preparation, Firpo Carr is releasing the latest in his string of books. He is the only one who could have written it with such ferocity. A number of fragments among the world famous

Dead Sea Scrolls are African documents. In fact, the oldest document among the Dead Sea Scrolls is an African manuscript. Carr brings a unique perspective since he personally worked extensively with Prof. Dr. John C. Trever, the late Bible scholar who was the first Westerner to discover the Dead Sea Scrolls and announce their existence to the world. Only a handful of scholars around the world were exposed to what was at the time the 2,000-year-old unpublished Dead Sea Scrolls. Carr was not only one of these, but was the only Black man to have done so. As a Man of Color, he was able to see through a set of lenses different from those of his colleagues. He was accorded the privilege of being in the "inner circle" since he was the first person ever to take color photographs of the oldest most complete version of the Hebrew Old Testament in the form of the 1,000-year-old Codex Leningrad B19a, located at the time in the Soviet Union, now Russian Federation. His daring adventures there made international news. Showing the influence of Black African rulers in the Hebrew Old Testament in the present book, the title "Pharaoh" is mentioned approximately 271 times in the first half of the Bible. Five pharaohs are mentioned by name, while eight remain anonymous. This book discusses an African Greek New Testament manuscript that was initially deemed the oldest of its kind until it was "re-dated" so as to lose that distinction. It was also first recognized as the best and most important manuscript in its genre. Scholars with questionable motives have even argued that the impressive Greek New Testament African manuscript is from anywhere but Africa, even though it is fabulously known as the Codex Alexandrinus, named after the Egyptian city of Alexandria from which it came. Amazingly, the Greek New Testament was "officially" cataloged in Africa in the fourth century CE. However, in the early centuries after Christ's death, distinguished African-born Christian historians, writers, and theologians like Origen, Athanasius (who was derisively called a "black dwarf"), and St. Augustine confirmed that the 27 books of the Greek New Testament had already been assembled and collectively recognized by the first-century Christian community at large. Not knowing the above details as presented in this publication by a Black man who was

in the "inner circle," some see the Bible as "the White man's book." While the oppressive White European Catholic Church, which sponsored the horrors of the Inquisition and engaged in other unconscionable acts, endeavored to prevent the Bible from being translated into the language of the common people, a handful of brave White European "revolutionary" translators like John Wycliffe, William Tyndale, and Martin Luther confronted the Church head-on and dared to translate the Bible in such a way that even a 'plow boy' could read it. Rome responded with a vengeance by hunting some of these down and burning them alive at the stake. These godly, honorable men are descriptively called "Snowballs in Hell" in the third section of this book. And what of the Black Christians who were contemporaries of the Bible translating martyrs? These and other long-overlooked and forgotten persons of African descent--peppering all strata of European society--are discussed in detail in this unparalleled piece of literature, "Black Bible Manuscripts: Why the Bible Isn't the White Man's Book.

Some say Christianity is white man's religion. . . . And it is true that there is a long and ugly history of abuse of African-Americans at the hands of Anglo Christians. Afrocentric interpretations of history often point to slavery, lynchings and the like as proof that Christianity is inherently antiblack. But Craig Keener and Glen Usry contend that Christianity can be Afrocentric. In this massively researched book, they show that racism is not unique to Christianity. More important, they show how "world history is also our history and the Bible is also our book." Black Man's Religion is one of the first of its kind, a pro-Christian reading of religion and history from a black perspective. Fascinating and compelling, it is must reading for all concerned for African-American culture and issues of faith.

The Bible gives the first and only true account of the origin of mankind. It is the only book containing an accurate record of the progress of man toward civilization, and it is the indispensable reference of all searchers after the real facts of the birth of humanity and its progress toward the civilization of today; beginning with his creation, it is the only authentic record of man; authentic because it is first hand, not a copy of something else or a scientific or literary review, but a dispassionate record of man's creation and progress, untrimmed, unshaped and unvarnished, to suit prejudice. It would not be a complete record if it did not show with the rest of them the origin of the black man and "Woe for all these pinnacle thieves" -it shows that he, the "black man" is the "father of civilization." The black man has been misrepresented by prejudiced historians and lecturers. It has been and is now quoted that Ham, the father of the black man, was cursed by his father, Noah. Now, in regard to this incident let us take the Biblical record for it, and anyone not totally blind with prejudice will be convinced by reading in the Book of Genesis the 9th Chapter from the 20th to the 27th verse inclusive, that Noah did not, "for he could not curse" Ham, although he did in a fit of intoxication pronounce a curse on Canaan, the son of Ham.

In the 1920s, Robert Athlyi Rogers founded the Afro-Athlican Constructive Gaathly religion in the West Indies. He wrote The Holy Piby as a guiding text, seeing Ethiopians - in the classical meaning of all Africans - as God's chosen people, and he preached self-determination and self-reliance. The Holy Piby is a major source of influence to the Rastafarian faith, which holds Haile Selassie I as Christ, and Marcus Garvey as his prophet. The Holy Piby consists of four books, and the seventh chapter of the second book identifies Marcus Garvey as one of three apostles of God. Original copies are extremely rare, and it is not even listed in the Library of Congress. The text was banned in Jamaica and many other Caribbean Islands until the late 1920s.
