this book consists of three sections. The first, written in 1939, was either left out of Elias's most famous book, *The Civilizing Process*, or was written along with it. Part 2 was written between 1940 and 1960. Part 3 is from 1987. Since 9/11, the American government has presumed to speak and act in the name of 'civilization'. But is that how the rest of the world sees it? And if not, why not? Stephen Mennell leads up to such contemporary questions through a careful study of the whole span of American development, from the first settlers to the American Empire. He takes a novel approach,

Drawing comparisons between the USA and other countries of the world, the topics discussed include: American manners and lifestyles Violence in American society The impact of markets on American social character American expansion, from the frontier to empire The 'curse of the American Dream' and increasing inequality The religiosity of American life Mennell shows how the long-term experience of Americans has been of growing more and more powerful in relation to their neighbours. This has had all-pervasive effects on the way they see themselves, their perception of the rest of the world, and how the rest of the world sees them. Mennell's compelling and provocative account

"Involvement and Detachment" is much more than a discussion of 'objectivity' in the social sciences. It is Elias' major exposition of his sociological theory of the growth of knowledge and the sciences as an aspect of overall human social development. Discussions of rising dangers in international relations show how far
