Nina McIntosh's The Educated Heart by Laura Allen provides a conversational style, easy-to-understand explanations of complex psychological dynamics, and practical suggestions for handling everyday boundary situations. Packed with real-world examples, this practical, compassionate book explores common situations bodyworkers and massage therapists encounter on the job and provides compassionate support and up-to-date information to help readers establish the solid professional boundaries they need for career success and personal well-being. The Fifth Edition includes enhanced coverage of the dynamics of the client-practitioner relationship, including specific suggestions for what to say to clients in difficult situations, as well as integrated coverage of the many boundary and confidentiality issues related to social media. Consider This ... features provide thoughtful suggestions for making career-affecting choices, as well as important issues to consider in day-to-day practice. Coverage of professional boundaries and the Internet helps students understand the myriad boundary issues involved in the use of technology and social media. Real Experience boxes, contributed by actual practitioners, discuss the problems and dilemmas they've confronted in their own practices. Whimsical drawings illustrate common scenarios, enhancing the friendliness of the text. Questions for Reflection help readers process and internalize key content. Key Terms are boldfaced in the text, defined in the margins, and gathered together in a back-of-the-book glossary. Increased coverage of the boundary problems faced by those who work in spas, physicians', or chiropractors' offices or for massage therapy businesses highlight challenges specific to these settings.

This handbook offers much-needed guidance on professional and ethical boundaries in client-therapist interactions. Replete with real-life examples, the book presents practical solutions to dilemmas, judgment calls, and sensitive situations including confidentiality, sexual attraction, socializing with clients, negotiating fees, and deciding when to stop working with a client. This edition's new communication chapter gives specific suggestions for what to say in various situations, emphasizing the importance of tone and intention. A new section explains how to set limits and why setting limits is crucial. This edition offers a clearer explanation of transference and countertransference with more real-life examples. Each chapter includes new Questions for Reflection.

The Educated Heart demystifies the important issues of establishing professional relationships in the manual therapies. The author uses humor, compassion, and humanity to present this complicated content in terms that are highly readable and engaging. The book includes real-life examples and practical solutions to dilemmas and sensitive situations that all bodyworkers face in their everyday practice. A companion website includes downloadable video clips depicting problematic boundary situations commonly experienced by bodyworkers and massage therapists.

This handbook offers practitioners of the manual therapies much-needed guidance on professional and ethical boundaries in client-therapist interactions. The author examines the complex psychodynamics of the client-practitioner relationship, explains why clear professional boundaries benefit clients, and shows how to establish and maintain boundaries in every type of encounter with clients. Replete with real life examples, the book presents practical solutions to dilemmas, judgment calls, and sensitive situations that face every professional, including confidentiality, sexual attraction, socialising with clients, negotiating fees, and deciding when to stop working with a client. Close attention is given to red flags that signal potential boundary problems.

"Massage mastery: from student to professional, presents the theory (why) and practice (how) of massage therapy in an engaging, accessible way for today's adult and young-adult learners. Chapters are organized into manageable topics that facilitate incorporation into any massage curriculum."--Publisher.

The further escapades of the incorrigible Evans, Edgar Wallace's Cockney hero of the Turf feature in these twelve tales. There are bets, bookmakers, horses, tip-offs, winners, journalists and women. There is banter, humour and much fun to be had along the way. From the author of Good Evans.

Ethical principles are far more than mere rules or regulations - they are maps for bringing out your best as a caregiver and healer. Responding to a lack of articulated or standardized ethical guidelines for energy healing practitioners, David Feinstein, PhD, and Donna Eden developed a professional curriculum that has become one of the country's most successful and effective energy medicine certification programs. Now, this comprehensive, case-oriented guide allows veterans of the field and newcomers alike to work through a wide range of ethical dilemmas before they arise, helping you to prevent professional errors that could hurt you, your clients, and your practice.

Atlas of Shiatsu presents clear, detailed descriptions of the twelve main meridians used in Shiatsu practice. The study of the meridians is a difficult aspect of Shiatsu training and this highly-illustrated atlas explains and illustrates their positions within the body. The description of each meridian is supported by 15-30 illustrations. Clear and detailed descriptions of each of the twelve main meridians used in Shiatsu practice Highly illustrated, with 15-30 illustrations supporting the description of each meridian Attractively designed The first atlas of shiatsu

Written by a well-known and highly respected author and practitioner within the field, Shiatsu Theory and Practice is a complete introduction to the theory and practice of Zen shiatsu, drawing in detail on the theoretical foundation of both Traditional Chinese Medicine and Five Phase theory as well as that of Zen. Beresford-Cooke explains the strands of theory in a way which makes their integration into practice clear and rational. She includes step-by-step descriptions of treatment routines and techniques, alongside case histories illustrating the application of theory to practice. The book features detailed descriptions and illustrations of meridians, point locations and functions, and these are shown together with salient underlying anatomy. The text is supported by full colour photographs as well as online videoclips showing techniques, routines in the four positions and how to treat individual points and meridians. There are also supplementary online resources such as exercises and activities, web links, appendices for each chapter, and instructor lesson plans, homework and testbank of questions. This fully revised third edition is essential reading for students and practitioners of shiatsu and massage therapy.

Technique Skills in Chiropractic covers many common diversified adjustive techniques for all regions of the spine and pelvis using a structured skill-based methodology. The basic skills required in order to carry out manipulative procedures safely and effectively are clearly presented, with photographs supporting descriptions of techniques and online video clips showing how to perform them. One of the key aspects of this text is the sequential and structured approach to manual skill learning from basic posture to more complex movement patterns to complete the overall manipulative/adjustive procedure. Technique Skills in Chiropractic now comes with Pageburst®, which gives readers access to the complete book content electronically. Describes common diversified skills in a structured sequential order for the treatment of all regions of the spine and pelvis Prepared by an international contributor team to ensure a broad approach Provides detailed explanations of the cervical techniques emphasizing the benefits and minimising the risks and the proposed steps required to carry them out safely Evidenced-based throughout Contains information on the adaptation of techniques for specific patient groups such as older people, pregnant women and children Contains new chapters on manipulation skills for women and ethics and professionalism plus a new chapter presenting up to date material on the biomechanics of the spinal adjustment. Contains revised chapters on thrusting skills and posture and manual skills for the elderly patient International advisory board established from key schools across the UK, Europe and Canada New revised user-friendly layout for easier navigation The new Pageburst® feature provides fully searchable text on-line together with video clips demonstrating pelvic and spinal assessment procedures, common diversified spinal and pelvic technique skills and extremity examination and manual skills
