The Namibian Constitution entrenches fundamental rights and freedoms, and provides for their vertical and horizontal application in any criminal process. However, since Independence in 1990, Namibia has developed its own criminal jurisprudence. Criminal procedure and law are taking new shape. Namibian courts have pronounced on criminal issues, and legislation has been passed to keep up with the demands, aspirations, spirit, and vision of the Namibian Constitution and its people. CLEVER MAPAURE, NDJODI NDEUNYEMA, PILISANO MASAKE, FESTUS WEYULU and LOIDE SHAPARARA have written an invaluable book that deals with these developments. It explains the rights of individuals, the duties of law enforcement officers, and the procedures of the courts in criminal cases. The Law of Pre-Trial Criminal Procedure in Namibia introduces readers to the fundamental principles and values underlying Namibian criminal law, through a systematic examination of the provisions of the Criminal Procedure Act, 1977 (Act No. 51 of 1977) as amended, which was originally passed by the legislature of South Africa, and still regulates criminal procedure in Namibia, the amendments to it since 1990, and relevant Namibian Case Law. The book captures and discusses the law relating to the pre-trial criminal process in Namibia in detail, from the roles of the prosecutor and the police, search, seizure and forfeiture, interrogation, notices and summons, arrest, court appearance, bail, criminal charges, disclosure, diminished capacity, right to assistance, to pleas and plea-bargaining.

Ninety percent of all civil cases never make it the jury; they are resolved through a pretrial process that is today the unsung forum for dispute resolution. Rather than teaching lawyers to abandon evidence and trial skills, Pretrial Advocacy does the opposite: it teaches lawyers that modern litigation is "front loaded" and cases must be prepared with the assumption that they will be tried. As the authors note, it is the rigor of the pretrial process that drives resolution. From the first client interview through motions practice, you will learn to effectively evaluate cases, draft complaints, conduct informal and formal discovery, prepare and respond to motions, negotiate with opposing counsel, and, if necessary, be ready for trial. Pretrial Advocacy is the ideal textbook for law school clinics, law school pretrial litigation courses, and practicing lawyers. Both practical and theoretical, it teaches litigation as a process informed by rules and cases, but also by strategic considerations. Its hands-on and accessible text makes it a perfect reference for learning skills and a continuing reference. Professors and students will benefit from: Practical guidance for each step of representation, backed up by citations and references for deeper understanding of each topic An accessible writing style that puts the needed information right at the reader's fingertips Tips to foster the attorney's relationships with clients, opposing counsel, and the court
