The Toyota Production System is an integrated socio-technical system, developed by Toyota, that comprises its management philosophy and practices. The TPS is a management system that organizes manufacturing and logistics for the automobile manufacturer, including interaction with suppliers and customers. The system is a major precursor of the more generic "lean manufacturing". Taiichi Ohno and Eiji Toyoda, Japanese industrial engineers, developed the system between 1948 and 1975. Originally call

developed by Toyota Motor Corporation it has now been adopted by many other companies, both in Japan and around the world. As the core element of the TPS, the Just-in-time (JIT) manufacturing system has had many books written about it however, there is more to successfully implementing JIT than simply studying the system itself.
